Dear Future Patient:

We would like to take this opportunity to welcome you to our practice. We are a group of cardiologists that work together for our patient's interest. If your doctor is not available for any of your needs, we will have one of our partners help you in your requests.

In an effort to make your appointment with us as smooth and efficient as possible, we have enclosed paperwork that we will need you to complete and have with you at the time of your appointment. If time permits, you may mail or fax this information to our office beforehand.

The following is a list of information that we would need for you to bring with you at the time of your visit:

List of all medications

Insurance card(s), co-pay, **if you are on an HMO insurance please bring your referral with you or have it sent at least 3 days beforehand.**

EKG, Cholesterol blood work (if done in last year)

Echo Doppler (ultrasound of your heart), Carotid Doppler (ultrasound of your neck), Chest X-Ray (reports only films are not needed), Stress test or any previous cardiac procedures or tests. If you have recently been in the hospital please bring their records. Please be advised that medical records are required for your visit.

Please allow yourself adequate time for parking since there is very limited space (in the PBG office). Should you have any questions, please feel free to call our office and our staff will be happy to assist you. Please be advised that there is a \$25.00 charge for missing your appointment or canceling without a 24-hour notice.

Sincerely,
Palm Beach Cardiology
